- CHAPTER(1)
  - INTRODUCTION
    - PROJECT NAME : EXODUS TRAVELS AGENCY
    - OBJECTIVE:
      1. Activating domestic tourism
      2. Increasing the rate of foreign investment inside Egypt
      3. Promoting the most beautiful places in Egypt
      4. Helping those who want to know the tourist attractions and everything related to ancient and modern Egyptian history
      5. Facilitating reservations, whether they are booking hotel Or tickets and arrangements for trips

- CHAPTER(2)
  - FUNCTIONS:
    - Simple and easy to use
    - Responsive web to help phones holders to view us with high quality
    - Booking hotel tickets
    - Booking tourist trips
    - Offer the best tourist offers today with the possibility of seeing the cost of each trip and the ease of electronic payment
    - Web Contents are up to date automatically
  - LANGUAGE WE USED :
    - Html & Css
    - Java Script
    - Php
  - APPLICATIONS WE USED :
    - NAVICAT
    - PHP MYADMIN
    - PHOTOSHOP
    - VISUAL STUDIO CODE
    - BRACKETS

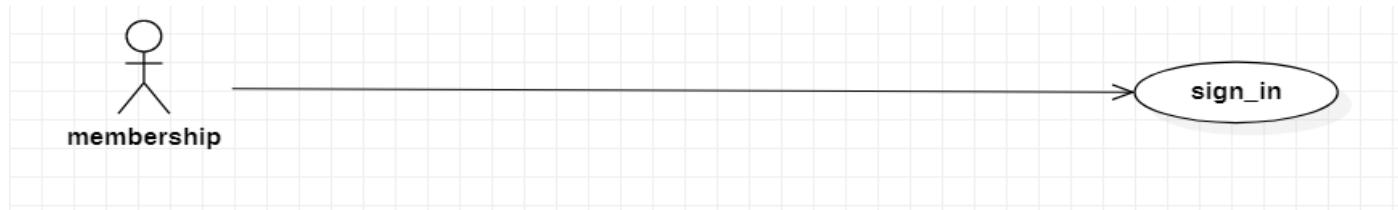

- CHAPTER(3)
  - **USERS DESCRIPTION:**

- Admin User Types.
  - Organization Admin, Super Admin
- General User Types.
  - Individual membership
  - 'Tourist', 'Sponsor', 'agent', etc.
  - Nonmember
  - without associated roles

Name	Default roles	Category	Description
Organization Admin	org_admin	Admin	<p>Organization Admin User Type is assigned to an individual in charge of the Web site. Organization Admins have access to Members data, but also data from all of the other applications installed on the Web site. The Organization Admin access type grants access to the members-only area, Reports Home page. These users have all the privileges of the Member access include adding, editing or deleting users. and the ability to manage data in all the applications on the Web site.</p> <p>This type can be deleted only by super_admin</p>
Super Admin	super_admin	Admin	<p>The Super Admin User Type is assigned to support staff and organization administrators who have received Members training for super administrators. The Super Admin type conveys the 'super_admin' role, which grants manage privileges of other roles including 'org_admin', 'report_admin', 'editor', and can add or delete all types of users and access permissions to configuration tools for Members and all other applications installed on the Web site. Because application configuration tends to be complex and has a significant impact on how well the Web site supports your organization's mission and business rules, the Super Admin User Type can only be assigned by company support staff or another Super Admin.</p> <p>This type cannot be deleted.</p>

Individual membership	Gen_users	General user	<p>This type of user can easily see and choose offers, and allows him to see all the trips or his old offers, and he can inform the administration of the page and communicate with them easily.</p> <p>This type can be deleted only by org_admin</p>
Nonmember	Non_user	General_user	<p>This type of user can communicate with org_admin only, and cannot subscribe to offers. All he can do is create an account and become a member or look to the page's content without an action</p>

- CHAPTER(4) UML DIAGRAMS
- *Usecase for membership\_users*
  - Uc1: sign\_in
    - Actor:membership\_users
    - Scenario: membership\_user can sign\_in by entering email and password. Then click sign\_in button

- Uc2: view\_offers

- Actor:membership\_users
- Scenario: membership\_user can view all offers in website home page

- Uc3: purshase\_offers
  - Actor:membership\_users
  - Scenario: membership\_user can any offer by click pick a trip button then entering paypal or credit\_card as a payment method, and pay financial fees.then receive a confirmation mail from org\_admin

Luxor, New Valley Governorate, Egypt

### The Valley of the Kings

Cost: \$6 to \$11

King Tutankhamen, probably the most well known ancient Egyptian ruler, is not the only pharaoh from the New Kingdom. At the Valley of Kings in Luxor, you can visit the tombs where the majority of pharaohs from the New Kingdom were buried 4,500 years ago.

Luxor City, Luxor, Luxor Governorate

### Luxor Temple

Cost: \$3.5

Luxor Temple (Arabic: مَعْدَلُ الْأَقْصَر) is a large Ancient Egyptian temple complex located on the east bank of the Nile River in the city today known as Luxor (ancient Thebes) and was constructed approximately 1400 BCE. In the Egyptian language it is known as ipet resyt, "the southern sanctuary".

- CHAPTER(8)

- Cloud-based from day one, our scalable and modular platform is backed by over 12 years' experience and more than 2 trillion lines of code scanned.
- Veracode is the most trusted and advanced SaaS application security platform. And it's only getting better -- we use the learnings from every customer interaction to make our results even faster and better for the next customer. Don't take our word for it; see this powerful application security solution in action.
- IN EVERY FORM WE USE JAVASCRIPT TO MAKE SURE THIS FIELD MUST ACCEPT THE CORECT INPUT AND MAKE SURE IT WILL BE NEVER EMPTY LIKE THIS

- AND MAKE SURE PASSWORD MUST MATCH THE CONFIRM PASSWORD FIELD LIKE THIS

A screenshot of a web form with three fields: 'Password', 'Confirm Password', and 'Email'. The 'Password' field contains '\*\*\*\*\*'. The 'Confirm Password' field is empty and highlighted with a red border. A red callout bubble with a exclamation mark contains the text 'Passwords Don't Match'. The 'Email' field is empty and has a placeholder 'Email'.
